

OUTPATIENT DISCHARGE INSTRUCTIONS
Orthopaedic Specialty Institute
Michael F Shepard M.D.
Gamekeeper's Repair

1. **Day of surgery: Instructions Immediate Post-Op**
 - A. **Diet: as tolerated**
 - B. **Keep hand elevated above heart as much as possible – it is critical for skin healing.**
 - C. **Pain medication as needed every 4 - 6 hours.**
 - D. **You will need to keep your op site(s) dry when taking a shower. You can cover your splint with plastic wrap or a Ziploc type bag.**

2. **Post-Operative Day until Return Visit**
 - A. **Ice pack as needed.**
 - B. **Continue daily shower routine.**
 - C. **Keep your hand elevated above your heart > 90% of the time.**

DO NOT place ICE directly to the skin – this will result in a burn and potentially serious wound complications. Always keep a pad between the ice and the skin.
